ABSTRACT

Approximately 1120 journal articles published between 1968 and 1975 are listed in this bibliography on public services in academic libraries. The major portion of the bibliography is devoted to articles, concerning college and university libraries in the areas of: (1) audiovisual materials; (2) circulation; (3) inter-library loan; (4) microforms; (5) reference services; (6) relations with faculty and curriculum; (7) reserve collections; (8) serial publications; and (9) services to business and industry, minorities, special groups, the community and undergraduates. Other topics include: (1) automation; (2) current awareness information; (3) junior and community college libraries; (4) periodicals; (5) selective dissemination of information; and (6) use studies. An abbreviations list for periodicals indexed is provided. (KP)
